

# ARTS121G : Jewelry Design & Metalsmithing

Through technical demonstrations, lectures and hands-on studio experience, students will learn the metalworking skills necessary to create unique pieces of jewelry and/or one-of-a-kind utilitarian objects. Students will investigate the relationship between form and function through creative problem solving. Respect for technical processes and quality construction will be combined with creative expression as the student learns to follow a concept from planning stages to execution. Class will be held at an off-campus location.
